How it works

You can now offer contactless delivery from your online ordering website. While some third-party delivery services charge exorbitant fees up to 30% of the total cost, with SpotOn you pay a flat fee of \$7.95 per DoorDash order. If you charge customers a delivery fee, your true cost can be as low as \$3 per order.

Reach new and loyal customers using online ordering with DoorDash Drive. Easily embed SpotOn online ordering on your restaurant's website and turn on the DoorDash Drive feature. No extra time or hardware needed. Customers will receive fast, reliable service from a wide network of drivers.
